Ebola virus hitches a ride for entry into the host cell

CIHR-III will be in Ottawa for their **50th Institute Advisory Board Meeting** (IAB). On this occasion, the University of Ottawa CI3 is partnering with III to showcase young Ottawa researchers in the area of infection and immunity. The community is invited to take advantage of this unique opportunity to engage with the Ottawa research community and meet the III's Scientific Director, Staff and members of the III Advisory Board.
