Health AI and Data Science (HAD) Journal Club Series

Workshop Series (Part 2 of 2) - Introduction to ggplot2

Reiko Okamoto

Methodologist, BRI

Monday, November 4th, 2024 | 3:00 PM – 4:00 PM

Intended audience

Participants should have a basic understanding of programming concepts such as variables, data structures, and functions.

- Beginner programmers interested in learning R
- Individuals familiar with coding in other languages but new to R
- Those with experience using base R but want to transition to the tidyverse

Learning Objectives

In this workshop, participants will explore the fundamentals of data visualization by learning how to create essential types of plots, including bar plots, line plots, and scatter plots. Through hands-on exercises, you'll gain practical experience in using ggplot2 to effectively communicate your findings and enhance your analytical skills.

Please email emmabrown1@ohri.ca if you would like to be added the HAD MS Teams group / mailing list.
