

TUESDAY, NOVEMBER 26, 2024

1:00-2:00PM

IN PERSON ROOM 3248 AND ZOOM

**PRESENTED BY:**

**Raphael Schneider, MD, PhD**

Neurologist, BARLO MS centre at St. Michael's  
Hospital, Unity Health

Associate Scientist, Keenan Research Centre for  
Biomedical Science

Assistant Professor, University of Toronto

*Hosted by Dr. Giulia Fadda*

## **SEMINAR TITLE**

**"MEASURING DISEASE ACTIVITY BEFORE SYMPTOM  
ONSET IN PEOPLE WITH MULTIPLE SCLEROSIS"**

### **Learning Objectives**

1. Identify key clinical and radiological predictors of MS progression in Radiologically Isolated Syndrome (RIS)
2. Assess the utility of advanced MRI markers in monitoring RIS and early MS.
3. Evaluate fluid biomarkers for tracking neuroinflammation and neurodegeneration in RIS.
