ADJUDICATION Platform Project List

Project List

	Project Title
	A Multicentre Prospective Cohort Study Assessing the Use of Weight-Adjusted Low-Molecular-Weight-Heparin in Patients with Cancer-Associated Venous Thromboembolism
	Adjudicator Training
	Age-adjusted D-dimer cutoff levels to rule out deep vein thrombosis: A prospective outcome study
	COmparison of Bleeding Risk between Rivaroxaban and Apixaban for the treatment of acute venous thromboembolism
	Safely Ruling out Deep Vein Thrombosis in Pregnancy with the LEFT Clinical Decision Rule and D-dimer: the LEaD study, A
	StAtins for Venous Event Reduction in Patients With Venous Thromboembolism Pilot Study

Event Description form

Study Name: Adjudicator Training

Event Description and Source Documents

Participant ID	<input type="text" value="cobtest-1"/>		
Site	<input type="text" value="zTest Site Two"/>		
Event Type	<input type="text" value="VTE"/>	Event Number	<input type="text" value="1"/>
The suspected VTE event is	<input type="text" value="Recurrent VTE"/>		

Factors prior to the suspected VTE event *(according to 2016 ISTH Guidance)*

- Unprovoked
- Provoked by a **major transient risk factor** during the 3 months before diagnosis of VTE
For example:
 - i. Surgery with general anesthesia for greater than 30 min.
 - ii. Confined to bed in hospital (only 'bathroom privileges') for at least 3 days with an acute illness.
 - iii. Cesarean section
- Provoked by a **minor (yet important) transient risk factor** during the 2 months before diagnosis
For example:
 - i. Surgery with general anesthesia for less than 30 min.
 - ii. Admission to hospital for less than 3 days with an acute illness.
 - iii. Estrogen therapy
 - iv. Pregnancy or puerperium.
 - v. Confined to bed out of hospital for at least 3 days with an acute illness.
 - vi. Leg injury associated with reduced mobility for at least 3 days.
- Provoked by active cancer (definitions as per article)
- Provoked by an ongoing non-malignant condition with at least a 2-fold risk of recurrent VTE off anticoagulants (For example: int)
- Not known

Location of the suspected VTE event to be adjudicated **(Required)**

<input type="checkbox"/> DVT (left leg)	Symptoms	<input type="text" value="-Select-"/>
<input type="checkbox"/> DVT (right leg)	Symptoms	<input type="text" value="-Select-"/>
<input type="checkbox"/> DVT (left side, upper extremity)	Symptoms	<input type="text" value="-Select-"/>
<input type="checkbox"/> DVT (right side, upper extremity)	Symptoms	<input type="text" value="-Select-"/>
<input type="checkbox"/> DVT (unusual site)	Symptoms	<input type="text" value="-Select-"/>
